

February 2023

What do you love about the maritime industry? The ships, the ocean, the opportunities, the international breadth, the global connectedness, the collaboration, competitiveness, challenges or is it the relevance and importance of what this industry achieves, moving 90% of everything? While I do appreciate all the above, for me, it's the **people**. I love the diversity, the stories, the achievements, challenges, and the truly wonderful cast of characters that make up this international maritime theater.

High School Maritime Career Day

On January 24, the CMA Education Foundation hosted a **Maritime Career Day** at Brien McMahon High School in Norwalk, CT. The students in grades 9-12 were part of the marine science and IB programs and throughout the course of the school day we interacted with about 100 students and half a dozen teachers. I am thankful to Mass Maritime students and CMA EF interns Brett Gaughran (Charles Weber) and Alyssa Grieco (NAMEPA), Hudson Structured Capital's Gokce Gomec and Yiannis Dalakouras, MT Maritime's Jim Stacy, and CMA EF Board Members Brad Berman (Berman Legal), Kevin Breen (Charles Weber), Molly McCafferty (The American Club) and Don Frost for generously sharing their time, stories, and career paths with these students. Thanks to CMA member Captain Bridget Cooney who couldn't participate in person but sent along a short video from the bridge of her ship. Your generosity in sharing your time, experiences and passion for the industry was greatly appreciated. The students all heard first-hand how this invisible industry puts clothes on your back, gas in your car, and food on your plate. (R. George) We educated, entertained, fed, and hopefully inspired a few to pursue education and career opportunities in the maritime industry. A few photos from the event follow. If you would like to participate in future maritime career days, please reach out to me.
